Dear partners!

Our enterprise, founded in 1910, has been famous for the quality of grain food products not only in Ukraine, but also in many countries of Europe, America, Africa and Asia for the second century.

Bühler equipment is installed at our mill with a processing capacity of 500 tons of grain per day. We produce **wheat flour and semolina**. We can also export the following products of our own production from Ukrainian grain:

- buckwheat groats
- pea groats
- oat flakes
- oat flakes
- spelled groats
- spelled flakes
- spelled flour.

We will be glad to see you among our customers and invite you to mutually beneficial cooperation.

Best regards,
Ivan Shilov, director
